1.

3.

5.

2.

4.

6.

1. COMBED COTTON

Our bread and butter. Our combed cotton is made from long fibres with a fine weave making it ideal for printing – the best in the market. We produce this in various weights: 120, 130, 150, 160, 180 and 220 GSM.

2. ORGANIC COTTON COMBED

We are really excited to be extending our range of products made from this eco-friendly fabric. This cotton has been grown without the use of herbicides or pesticides. See page 6 for our range of organic products.

3. COTTON CARDED

Carded cotton has not had its fine top layer shaved off and is made from shorter fibres. The result is not as soft as our combed cotton but is durable and more cost effective. We use this for our price-point Block Tee and Base L/S Tees.

4. COTTON/POLY BLEND

We have just developed a new fabric that requires less polyester to achieve the popular 'marled' look making for a softer, more cotton-rich result. Check out our new mid-weight Staple Marle Tee.

5. COTTON/POLY FLEECE

We use an anti-pill, cotton-rich polyester blend for our heavier weighted sweatshirts. Our most popular being the 350 GSM Stencil Hood which is 80% cotton 20% polyester.

6. COTTON/POLY French Terry FLEECE

For our lighter weight sweats like our Brush Crew we prefer a 75% cotton 25% polyester anti-pill French Terry fleece blend. The French Terry construction makes it more breathable than a standard poly-blend fleece.

OUR FABRICS.

7.

9.

8.

10.

11.

7. COTTON FRENCH TERRY

We've recently introduced cotton French Terry in a new range of premium sweatshirts. Heavy weight and 100% cotton meaning they are warm but breathable. The medium sized loop back gives a softness to an otherwise heavy fabric.

8. COTTON OXFORD

Our most popular shirts are our Oxford's which we make in both Mens and Womens styles. Cotton oxford is pure cotton in a tight gauge basket weave making it super durable.

9. POLYESTER RIP-STOP

Polyester rip-stop is an easy-to-wear light weight and water resistant fabric. We've used this in a long favourite of ours – the Cyrus Windbreaker as well as newcomer the Section Zip Jacket.

10. COTTON CANVAS

Our three styles of tote bags are made from premium 100% cotton, heavy weight canvas with a durable, plain weave making for the perfect printing surface.

11. COTTON DRILL

We use cotton with a drill weave in our heavier outerwear products. To allow for a slight stretch in our pants we add a small amount of elastane to this fabric for comfort.

OUR COLOURS – MARLES / WASHES .

Our range has more than 70 colours and is ever expanding. This colour chart provides approximate examples of the colours; providing equivalent Pantone colour names (Pantone Matching System®, PMS colours) for our solids for your reference.

Some colours can't be accurately reproduced because of the unique characteristics of certain fabrics; when possible, please refer to an actual garment.

—

Most of our marle fabrics are a polyester/cotton blend where the fabric is dyed after it has been knitted. The polyester thread doesn't absorb the dye creating the marle effect. With our 100% cotton marles the yarn is dyed first and afterward knitted into fabric with a contrasting yarn to create the marled look.

Our Stone Wash fabrics have been treated to produce a faded, vintage appearance.

S O C I A L R E S P O N S I B I L I T Y .

At AS Colour we recognise our responsibilities to workers for the conditions under which our products are made. We only work with factories that can assure audit-able standards of safe, fair, legal and humane working conditions. Aiming for transparency and traceability at all levels of our supply chain – we are proud to be certified by the following compliance programmes.

CHILD LABOR FREE.

AS Colour is proudly certified *Child Labor Free* to Manufacturing level. *Child Labor Free* is a certification that independently inspects and analyses supply chains for the use of child labour.

Child Labor Free certification empowers consumers to recognise brands that do not use child labour and supports brands to ensure child labour does not exist in their supply chains.

Child Labor Free is a certification mark that provides best assurance that the product or brand carrying the mark has met the required standard.

For information please visit www.childlaborfree.com

AMFORI BSCI.

The *Amfori BSCI* (Business Social Compliance Initiative) is a leading business-driven initiative for companies committed to improving working conditions in factories and farms worldwide.

They offer a system to monitor working conditions of manufacturers through audits; those audits are then shared. Their Code of Conduct sets standards for working conditions based on international conventions such as:

The Universal Declaration of Human Rights, the Children's Rights and Business Principles, UN Guiding Principles for Business and Human Rights, OECD Guidelines, UN Global Compact and International Labour Organisation (ILO) Conventions and Recommendations.

You can visit www.amfori.org for further information

WRAP.

WRAP is the world's largest independent factory-based social compliance certification programme for the sewn products sector.

It's 12 Principles cover: compliance with local laws, prohibition of forced labour, child labour, discrimination, harassment or abuse, compensation and benefits, hours of work, health and safety, freedom of association, environment, customs compliance, security.

WRAP provides for at least annual unannounced audits, which include allowance for off-site employee interviews. From this, corrective action plans are put in place as well as follow-up audits to resolve any non-compliance before certification is awarded.

Full details available at www.wrapcompliance.org

ascolour.
organic.

We've been working on expanding our range of Organic products, adding an organic option to some of our most popular styles – Staple & Maple Tees, Barnard Tank and Base L/S Tee.

The yarn used in this line of products is grown without the use of herbicides or pesticides and is certified by **GOTS** (Global Organic Textiles Standards). Our organic garments have been certified '**Organic 100**' by **OCS** (Organic Content Standard) guaranteeing that they are made from no less than 95% organic material.

Our factory uses certified production lines to manufacture our organic products – everything from dyeing using organic pigments to knitting and the treatment of waste water is compliant with **GOTS + CUC** (Control Union Certificate) environmental processing regulations.

ABOUT US.

AS Colour designs and manufactures quality basics.
We believe in taking our time with every product we make.
We only design and produce premium apparel that will stand the test of time.

AS Colour is guided by
three key principles:

Quality is key.
Respect the details.
Keep it simple.
