5 things you may not know

Lightweight and Durable:

Made with aluminium frames and push-fit connections, tube fabric displays are sturdy yet lightweight, featuring stretch polyester fabric that resists wrinkles and stays smooth.

Quick, Tool-Free Assembly:

The snap-fit tubing system allows for easy setup in under 10 minutes, ideal for trade shows, exhibitions, and corporate events.

Seamless Graphics:

Dye-sublimated stretch fabric slides over the frame like a pillowcase, creating a seamless, wrinkle-free display with no visible joins.

Compact and Travel-Friendly:

These displays pack down into lightweight, airline-friendly cases for easy transport.

Customizable Add-Ons:

Tube fabric displays can be enhanced with LED lighting, shelves, monitor mounts, and double-sided printing, offering versatility for any event.

portable event displays

Fabric tension tube displays offer a versatile and visually striking branding solution for trade shows, promotional events, retail spaces, and indoor advertising. They combine effortless setup with professional-quality graphics, making them an essential tool for businesses needing portable and impactful displays.

WHAT ARE FABRIC TENSION TUBE DISPLAYS?

These displays consist of:

- A lightweight aluminium frame, designed for durability and portability.
- A stretch fabric graphic, printed via dye-sublimation for vibrant, high-definition imagery.

HOW THEY WORK:

- **Quick Assembly** – The snap-together aluminium tubes connect easily via a push-button or snap-lock system, ensuring a tool-free setup.
- **Fabric Installation** – The stretch fabric slides over the frame or attaches using silicone edging, ensuring a seamless, wrinkle-free appearance.
- **Ready to Display** – The lightweight structure can stand alone or be part of a larger exhibit, while its matte fabric finish reduces glare, enhancing visibility under various lighting conditions.

KEY BENEFITS

- **Portable & Lightweight** – Packs into a compact carrying case for easy transport.
- **Quick Setup** – No tools required, making assembly effortless.
- **Durable & Reusable** – Corrosion-resistant aluminium and washable fabric for long-term use.
- **Versatile & Customizable** – Available in various shapes and sizes with custom graphics.
- **Cost-Effective** – Provides high impact at a lower cost compared to permanent fixtures.
- **Perfect for trade shows, retail promotions, and corporate events**, fabric tension tube displays offer an eye-catching, professional solution for any brand.
